(Company No. 384662-U) (Incorporated in Malaysia)

INTERIM FINANCIAL REPORT FOR THE FINANCIAL PERIOD ENDED 30 APRIL 2015

NOTES TO THE INTERIM FINANCIAL REPORT

(b) Key Sources of Estimation Uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses, unabsorbed capital allowances and unused Reinvestment Allowance to the extent that it is probable that taxable profit will be available against which the losses, capital allowances and reinvestment allowance can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies. The total carrying value of unrecognised tax losses and capital allowances of the Group was RM26.66 million (30.4.2014: RM20.141 million).

(ii) Depreciation of plant and equipment

The cost of paper making machinery is depreciated on a straight-line basis over the assets' useful lives. Management estimates the useful lives of these plant and machinery to be within ten years. These are common life expectancies applied in the industry. Changes in the expected level of usage and technological developments could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

4. Auditors' Report on Preceding Annual Financial Statements

The auditors' report on the financial statements for the year ended 30 April 2014 was not subject to any audit qualification.

5. Seasonal or cyclical factors

The business of the Group was not affected by any significant seasonal or cyclical factors during the financial year under review.

17. Prospects

The next financial year will continue to present challenges to the Group due to high inflation, volatile currency and the implementation of Goods and Services Tax effective 1 April 2015.

In light of these challenges, the Group has strategic plans and control measures put in place to mitigate the impact from these adverse conditions. Several cost-savings projects have been identified and approved to improve the Group's operational efficiency and keep a tight rein on costs to drive down waste and inefficiencies across the group's business units. We are looking into ways to strengthen our customer base and improve our distribution channel. The Group is also looking at developing new products and opportunity to venture into new business segments if the expansion synergizes with the Group's current business model. With this in place, the Board is cautiously optimistic about its prospect.
