NTPM ESH POLICY

NTPM recognizes its moral, legal and environmental responsibility to provide a green, safe and healthy work environment for its employees and other stakeholders. NTPM is committed to develop a sustainable green, safety and health culture in the organization by: -

- (a) Protecting the environment by preventing or mitigating adverse environmental impact. This shall include the resource use, waste management and emissions, renewable energy deployment, water and energy consumption, GHG emissions and deforestation.
- (b) Providing and maintaining a safe and healthy working conditions for the prevention of work-related injury and ill health;
- (c) Establish, implement and maintain processes for elimination of hazards and reduction of occupational health and safety risks;
- (d) Preventing pollution to the environment, work-related fatalities, disabilities, injuries, ill health, diseases, property and environmental damage and near misses;
- (e) Complying with applicable legal and other legislative requirements on Environmental and Occupational Safety and Health Management;
- (f) Ensuring that employees and their representatives are consulted and encouraged to participate actively in all elements of the Occupational Safety and Health Management System; and
- (g) Continually improving the performance of the Environmental and Occupational Safety and Health Management System to enhance environmental and occupational health and safety performance.
